

NeuralAI is a society in DTU with the aim of uplifting the fields of Artificial Intelligence and Machine Learning in the college to build a community that thrives on a strong culture of development, growth and ingenuity. We aim to push the envelope of our creativity by integrating Artificial Intelligence with every other sector and the non-technical domains in innovative and crafty ways.

1. Research papers and project
2. Deployment projects
3. Hardware projects
4. National and international projects
5. Internship opportunities

Achievements

1. 15+Research papers published by society members
2. Multiple professional internships bagged by the team.
3. 2 International Research Interns leading the Core team. .
4. 7 ongoing research projects
5. 4 ongoing development and deployment projects
6. 4 internship opportunities provided
7. Webinars on Introduction to AI and ML
8. Spread awareness about AI

Departments within Neural AI

1. AI: The AI department of NeuralAI DTU is at the forefront of exploring and advancing the field of Artificial Intelligence. The department consists of a group of enthusiastic individuals who are passionate about AI and are committed to conducting research and organizing events related to this rapidly evolving field. Through seminars, workshops, and hackathons, the AI department of NeuralAI DTU provides a platform for students to learn and experiment with AI techniques and technologies.
2. Development: The Development department of NeuralAI DTU is responsible for building and implementing AI-based solutions. The department consists of a team of developers who work on developing and deploying AI-based systems to solve real-world problems. From chatbots to computer vision applications, the Development department of NeuralAI DTU is involved in creating cutting-edge AI-based solutions that can be applied across various industries.
3. Creative: The Creative department of NeuralAI DTU is responsible for designing and promoting the society's brand and events. The department consists of a group of designers and content creators who work on creating visually appealing designs, videos, and other promotional materials. From social media posts to flyers and posters, the Creative department of NeuralAI DTU ensures that the society's events are well-publicized and attended by a diverse group of individuals.
4. PR: The PR department of NeuralAI DTU handles communication with the public and media. The department is responsible for creating a positive image of the society and its activities in the eyes of the public. The PR team of NeuralAI DTU is involved in creating press releases, contacting media outlets, and managing the society's social media presence. Through

effective communication and outreach, the PR department of NeuralAI DTU ensures that the society's message reaches a wider audience, and that the society's activities are recognized and appreciated by all.

Council

1. President - Aditya Kumar
2. Vice President (Tech) - Keshav
3. Vice President (Non tech) - Aryaman
4. General Secretary - Saksham Checker
5. Treasurer- Nitesh
6. Joint Secretary- Aditya Meena, Samridhi
7. Corpo Head - Ashutosh
8. Design Head - Nishant
9. Content Head - Abhishek
10. AI Head - Aryaman Rao , Harjas
11. Operations - Mausam, Tanish
12. Marketing - Aadhya
13. Outreach - Chirag
14. Events - Akshansh
